# I Am Sage
Vocabulary

I Am Sage is a web-based vocabulary learning tool built by students at UMN-Morris. The app works in languages and for allages, but is optimized for 3-5th grade English speakers.

Safety

The sage app is a safe and secure learning environment. Creating or editing cards is locked to teacher accounts, which means you can safetly introduce this technology into your class without worrying about naughty words or other issues.

No sign in required:

The sage web-app does not require students to have or make accounts to use. Just visit the sage URL to start playing with your class!

Game-play:

- The Sage Game is played with 2-4 players, all working from the same device.

- Players take turns guessing while the other players judge.

- Player specific points are displayed at the end of games. These points are not stored, and are not permanently associated with any given player.

- Games can be played without sign in by any device with a browser and Internet access.
